

# THE UPPER LACHLAN SHIRE COUNCIL

# BULLETIN

SEPTEMBER 2022

## Opportunity for feedback on pedestrian crossing

Plans for the pedestrian crossing on Goulburn Street, Crookwell to improve safety in around Goulburn Street Crookwell are being finalised and Council is seeking your feedback.

Community feedback, along with crash data and other road safety information, will help refine designs and improve safety at this location.

“Council and Transport for NSW have been working closely on this issue and TfNSW understands there are concerns regarding pedestrian safety at the existing pedestrian crossing on Goulburn Street at Crookwell,” General Manager Colleen Worthy said.

Those concerns include:

- Road users failing to give way to pedestrians using the crossing
- Pedestrians feeling unsafe when they use the crossing
- Difficulty for road users judging the intention of pedestrians lingering on the edge of the crossing
- Pedestrians stepping straight onto crossing without the safety of stepping off a kerb first
- Appropriate speed for road users travelling down Goulburn Street
- Illegal and unsafe parking movements in Goulburn Street and the intersections of Roberts, Spring and Colyer Streets.

“To improve safety and address community concerns, TfNSW has proposed:

- 1 upgrading the crossing between Robert Street and Spring Street to a raised crossing
- 2 including a terracotta coloured platform surface to the raised crossing to increase visibility,
- 3 improving line marking and signage related to the crossing
- 4 reducing the speed limit in areas of high pedestrian activity in and at entry to Goulburn Street

Crookwell IGA co-owner Floyd Davies, Member for Goulburn Wendy Tuckerman and ULSC Mayor Pam Kensit on a recent inspection of the Goulburn Street Crossing.

5 providing a primary area for pedestrians to step onto before stepping onto the crossing

We would particularly like feedback on

- whether your key concerns have been understood
- regarding road safety in Goulburn Street at Crookwell,
- whether the community would support a reduced speed zone to improve safety for pedestrians,
- preferences for the location of high pedestrian activity areas, and
- whether the future area for the high pedestrian activity area should extend along Goulburn Street between Roberts and Spring Streets (1 block) or between Roberts and Colyer Streets (2 blocks).

To have your say or for more information, please visit the “Have Your

Say Upper Lachlan” website. The community consultation period will be open from 14 September 2022 to 14 October 2022.

Upper Lachlan Council will also run, in parallel, community consultation sessions on the future treatments for the approaches to the pedestrian crossing, as these will need to be modified to make the crossing safer.

The two public consultation meetings will be held on Wednesday 28 September 2022. The community can attend in person at Emily Chalker Sports Centre in Robertson St Crookwell at either 10am or 5.30pm in that period.

Following consultation a consultation summary will be prepared and recommendations made on the next steps.

## Council Works in Progress - update 15 September 2022

### Grabine Road Reconstruction (Growing Local Economies Program)

The road reconstruction component of Grabine Road project has been completed. The funder has approved a time extension until January 2023 to enable causeway upgrade works incorporating large box culverts at Sandy Creek. Due to frequent and substantial water flow at the creek crossing, a dry weather spell is required before these works can commence. Work is scheduled to commence in September 2022, weather permitting. If weather does not allow culvert works in this timeframe council will seek further extension and/or amend scope of works to use remaining funds on causeway upgrades.

Laggan Road MR248E Rehabilitation (Regional Roads REPAIR Program) Pavement rehabilitation and drainage improvement works have been completed on the Laggan Road. Works included from Boongarra Road to the newly reconstructed pavement in Laggan Village near the School. Line-marking remains to be completed, this will be done in the next visit by line-marking contractors.

### Goulburn Road (MR54) – RMCC (State Road Funding)

Reseal of Segment 53 (Sooley Creek) referred to warranty and repair provisions of contract (Downer EDI) together with urban streets. Completion of Speed Zone alterations - Glenfield Road to Tuena and Abercrombie River. Completion of 2 x pullover areas North of Tuena for Heavy Vehicles.

Ongoing advocacy to TfNSW to address pavement failures and reseal

program on State Main Road 54. TfNSW have allocated \$250K for Heavy Patching on MR54 and nominated 5 segments for reseal including reseal preps.

### Peelwood Road Reconstruction (Heavy Vehicle Safety and Production Program)

A further length of Peelwood Road will commence construction in September/October 2022. Ongoing maintenance will continue until construction commences. Grant funding has been extended with completion due by 1 December 2022. The works will progress northwards from the end of existing seal towards Peelwood.

### Wheeo Road Reconstruction (Heavy Vehicle Safety and Production Program)

Construction will commence on a further length of Wheeo Road September/October 2022. The works will progress westwards from the end of existing seal towards Wheeo. Grant funding has been extended with completion due by 1 December 2022.

### Wombeyan Caves Road MR258

Federal and State Government have both agreed to fund the Slope Stability works with the surplus funds now being allocated towards slope stabilisation of a section of unstable road batter near Wombeyan Caves. Construction tenders were advertised on 1 June 2022 which closed on 30 June 2022. The tender was awarded with anticipated start date of July 2022 with completion, weather permitting, by mid-December 2022.

Council was recently contacted by

National Parks and Wildlife Service (NPWS) and their contractor Carfax Commercial noting there is a \$9.6m project underway at Wombeyan Caves and there will be large number of truck movements on Wombeyan Caves Road until January/February 2023. Wombeyan Caves Road is required to be closed to undertake the slope stability works and this would halt the NPWS project. Council and NPWS have been communicating through the month of August to come up with a solution. A site meeting was held on 23 August 2022 between ULSC, NPWS, a Geotech Engineer and Carfax to resolve the issue, the current option pursued is for Council to undertake the most urgent works including culvert clearing and postpone the remaining works until February 2023 when the NPWS project is complete. Negotiations are underway with NPWS and Council's contractor for the slope stability works, to determine the lowest risk and most pragmatic solution.

### Collector Road (Fixing Local Roads Program)

A 3km extension of the bitumen sealed length of Collector Road 5km to 8km from Gunning is now complete, including line marking. The project was completed under budget with approximately \$350k remaining. An application has been made to TfNSW to have the works extended to utilise these unspent funds.

### Gurrundah Road (Friars Hill) Upgrade (Roads to Recovery Program)

The upgrade works on Friars Hill has commenced which involves improving the road alignment, additional culverts

## Council Contacts

Facebook: [www.facebook.com/upperlachlantourism](https://www.facebook.com/upperlachlantourism)  
Instagram: <https://www.instagram.com/upplachtourism>

and culvert extensions, and select lengths of road widening and bitumen seal. Due to weather conditions and unforeseen problems with subsurface failures on the construction site, the completion date for this work has been pushed back to September 2022.

### **Tablelands Way (MR 256 – Taralga Rd)**

Council have received grant funding from the NSW State Government to upgrade four sections of Tablelands Way (also called Taralga Road or MR256) north of Taralga. These sections have been numbered in order of priority. Section 1 (the highest priority), is the replacement of an underperforming culvert/causeway arrangement over Burra Burra Creek with a single span bridge; Sections 2-4 are road upgrades with several curve realignments, widening, and furnishing.

The design for Section 1 is 80% complete with only minor changes outstanding. The Project is currently waiting on flood modelling and property acquisition before the works can go to tender. This is expected to happen in September 2022, with construction to commence in early 2023.

The designs for Sections 2-4 are 100% complete and ready to issue for tender. The proposed scope of works extends for almost 4.4km of upgrades. Council is preparing the Request for Tender documentation suite and concurrently organising preliminaries such as property acquisition and minor service relocation in anticipation of imminent construction works.

### **Timber Bridge Replacements**

The fabrication continues with first delivery schedule for Cooksvale Road, Peelwood bridge scheduled for delivery on 6 September 2022, followed by Burra Burra Creek, Blue Hill Road on 23 September 2022. Crookwell River, Julong Road (2) is scheduled for completion of fabrication on 15 October 2022 with delivery date to be confirmed.

The construction contractor, Bridge and Civil is continuing pre-construction preliminaries however due to wet weather on some sites there has been a schedule slip with the new completion date end of January 2023.

### **Robertson Lane Rehabilitation**

Rehabilitation Works commenced on

schedule in late June 2022. The works include pavement upgrade, bitumen sealing and kerb and gutter (layback style). Pavement subgrade, swale and rock drain work continues, while concrete kerb and gutter has been completed. Forecast completion date has been extended due to wet weather, to late September 2022.

### **North Crookwell Stormwater**

Stormwater upgrade works continue in North Crookwell. Wet weather has caused delays to the contractor. Drainage works in Gordon Park, regrading and reshaping existing swale drains and the forming and laying of concrete drains within the park and in Soudan Street and Wolseley Road are 90% complete. Reshaping of road edge drainage at the intersection of Gordon Road and Soudan Road continues.

A review of design for North Street is being carried to ensure all properties are served and stormwater surface flows can be controlled.

### **Resealing Program (Roads to Recovery Program)**

The resealing program has been completed on Orchard and Hillas Streets in Taralga, Peelwood Rd, Fullerton Rd, Jerrawa Rd, Collector and urban roads in Crookwell. Due to the delayed commencement by the contractor and the cold and wet weather soon after application there are a number of seals that have exhibited stripping of the aggregate. The contractor will periodically sweep up the loose stones that continue to unravel from the seal. The defects will be rectified in warmer weather (October 2022) with the rectification strategy agreed with Council.

Council received \$4.3M in grant funding to be spent over the 2021/22 and 2022/23 financial years. Reseals and reseal preparation works will be undertaken on Bigga Road, Roslyn Road and Cullerin Road to complete the program this financial year.

### **Gravel Road Resheeting Program (LRICIP)**

Council's gravel resheeting program for the financial year comprises of \$500k to be spent on Redground Road, Redground Heights Rd, Pejar Rd, Glenerin Road, Blackney Ck Rd and Rugby Road. An additional \$625k carries over from last financial year on

Mulgowrie and Middle Arm Road funded from Fixing Local Roads Rd3.

### **Pedestrian School Zone Safety Program**

Stage 1 (Raised Pedestrian Crossings) - Upgrade of existing school crossing with concrete raised pedestrian crossings in Crookwell, Gunning, Collector and Taralga. Detailed design works have been completed. Construction tenders were sent out to seven contractors via vendor panel on 22 July 2022 and tenders closed on 17 August 2022. There were no tender submissions, therefore tenders have been sent out via email to five local contractors on 19 August 2022 and the tenders will be closing on 1 September 2022.

Stage 2 (Line marking and Signage) – Survey works have been completed. Scope of works and Bill of Quantities (BOQ) were finalised 26 August 2022. Request for Quotation (RFQ) was sent out end of August 2022 and works to be carried out in September/October 2022.

### **Flood Warning Systems**

The scope of works include the upgrade of rain gauges to automated systems in Crookwell, Taralga, Collector & Gunning and installation of a new water level gauge at Gunning. The automated rain gauges and water level gauge will include alert facilities to SES and Council.

Options study and design works are in progress. Stage 2 report has been circulated by the design consultant Manly Hydraulic Laboratory (MHL) on 12 August 2022, to which SES and Council have responded with comments. The project has been delayed due to correspondence delay by Bureau of Meteorology (BoM) and the previous completion date has been extended by one month to mid November 2022.

### **Natural Disaster Restoration Works Program**

Council continues to suffer considerable damage to the road network following wet weather events. While crews are continually attending to unsealed roads, rehabilitation of large pavement failures is also urgently required. Council has engaged contractors to both manage and undertake the storm damage restoration under the various declarations.

**Library Biz** with Susan McIlroy - Manager, Library Services**Upper Lachlan Shire Library Service  
OCTOBER 2022**

The school holidays are upon us with lots of fun activities to keep the kids busy.

In October we're also looking for your feedback on the Library.

What do you like about the Library? What would you like to change? Fill in our survey to let us know!

Use <https://www.surveymonkey.com/r/ULSL2022> or pick up a hard copy in your local Library branch.

Everyone who completes the survey can also go in the drawer to win an Android tablet. Thank you for taking the time to share your thoughts!

**School Holidays – Board Games with Friends of the Crookwell Library**

Join the Friends of the Crookwell Library for a fun day of board games, scrabble, card games and more. And no screens! Lunch will be provided

Where: Crookwell Library

When: Thursday 29 September, 11:00am to 3:00pm

Who: Children aged 6 to 15 years Cost: Free

Bookings essential. Call 4832 1048 or book online from 12 September: <https://tinyurl.com/ULSLGame>

**Design a Bear – School Holiday Activity**

Take one bear – and make it your own! Paint or draw your design directly on to the bear to create a cuddly companion unique to you.

Where: Gunning Library

When: Tuesday 27 September, 2:30pm to 3:30pm

Who: Children aged 5 to 15 years.

Cost: Free

Bookings essential. Call the Library on 4845 1231 or book online from 12 September:

# Tourism Happenings with the Upper Lachlan Tourism Unit

## Tourism Meet & Greet

Thank you to everyone who attended and for your feedback. We discussed Christmas plans; Jacquie Tewes, Business Advisor from Enterprise Plus gave a very informative presentation on the assistance they can provide to small business and Peta Proudfoot from Red Robin Nursery was our business speaker who told us all about her wonderful nursery.

The next and final meet & greet for this year will be held on Tuesday 8 November.

## Events & Festivals

We are busily working on developing a vibrant calendar of new and existing events across the Shire and applying for several grants to enable this to happen. If you are planning on holding an event please get in touch with us, so that we can help promote it. Christmas events will be promoted under promote the Christmas in the Shire umbrella.

Following are some of the events Council has planned with more to be added in coming weeks.

## Crookwell Twilight Christmas Fair

Featuring the official opening of the Lights & lighting of the tree, a Christmas Wonderland in Memorial Park, Twilight

Markets in Spring St, late night shopping by participating businesses, entertainment and of course Santa!

Shire Businesses are invited to participate in the Twilight Markets in Spring St, while businesses in the main street are invited to either open for late night shopping, have a market stall or potentially do both if they would like. Hospitality businesses from across the Shire are encouraged to apply to operate temporary Food & Beverage stalls. Please get in touch if you would like a stallholder application.

## Christmas Window Dressing Competition for Local Businesses

We are encouraging businesses to decorate your front windows and/or frontages. Prizes for Best Dressed Window and/or Frontage as well as a People's choice award. The competition will run from the 1 December to 22 December. A winner from each town and the overall Shire winner will be announced at the Shop our Shire Spending Spree Draw. More details will be provided in the coming weeks.

## Shop our Shire Spending Spree Competition

Want to win the ultimate Christmas gift? How about a grand shopping spree that can be spent throughout the shire at

participating businesses.

Spend over \$20 at any participating business between 28 November and 22 December and go in the draw to win a massive shopping spree. Multiple prizes will be available to win.

The winners will be drawn on 24 December. Time and Location TBC.

Shire businesses are invited to participate in this wonderful initiative to take place between 28 November, concluding at 12pm 22 December. Businesses can contact us for more information. Participation forms will be sent out to businesses in early October. If you do not receive, please advise us as all forms must be in by 31 October.

## Save the Date – Crookwell Country Weekend Sat 18 & 19 March, 2023

Crookwell Country Weekend is coming back in a big way and will be held at The Crookwell Showgrounds with activations in The Main Street. A celebration of Australian Rural Life, past & present, we will be releasing more information in November.

If you are interested in participating as a stall holder, having a catering outlet, providing entertainment or helping as a Volunteer, please get in touch with The Tourism Unit to register your interest.
