Upper Lachlan Shire Sports & Recreation Committee Meeting

Held 4 Mar 2020 7.00pm Crookwell Services Club

Present: Jesse Croke, Paul Culhane(Chairman), Brad Dawson and Ellie McGeechan

Apologies: Ric Opie, Darren O'Brien, Gill Cummins, Mark McGaw

Meeting opened at 7.10

Field Managers Report

JC noted it had been a challenging year with the low rainfall making it extremely difficult to keep the grounds adequately grassed. The issue was particularly difficult at Todkill Park where the irrigation dam dropped to levels that made it impossible to water the fields for spring & summer. Even though about 170mm has fallen in the last month there has been no runoff with the immediate catchment of large farm dams taking all run off and the level of the irrigation dam remains critically low.

JC believes a permanent solution is necessary given the string of dry seasons and has had divining work undertaken that indicate a bore is feasible at the Goulburn end of the grange and also near the same boundary at Todkill Park

Moved that the committee support JC's plan to install two new bores and lobby the GM and councilors accordingly Put EM seconded BD

JC was aware of the season start in rugby league but has no other information on season draws for other sports. **All sport secretaries requested to urgently provide season draws** and details of any proposed trials in Crookwell to grounds staff.

JC also called on memorial oval users to assist maintaining the surface by not basing all training activities including scrum machine use immediately outside the club house. He has considered roping off the first quarter as this section is always the worst still giving $\frac{3}{4}$ field for ball work training.

All the committee supported this action. BD also mentioned with the lights at the grange could that also be considered to reduce the load. JC said it was possible but would need approval by soccer club who have their own usage needs

Moved that on a trial basis the first quarter be roped off so as not to be used for training and any scrum machine work to be undertaken between the sideline and fence on the Marsden street side. Put PC seconded BD

Sports Rep Feedback

Touch Football

EM said while disappointed the senior touch did not happen this year it was pleasing to see the juniors comp expand and being well supported. Biggest issues facing touch is the condition of Todkill which threatened the season start this year. Ellie is very supportive of JC's plan to supplement Todkill dam with a bore to address this major risk factor.

EM further noted that the only reason senior touch did not happen is the core committee who have run it for over 10 years receive no support in organization, refereeing and fees collection. Likely to attempt to get it going again next year but it won't happen unless others join the committee to assist with key admin roles

Hockey

PC just again expressed concern at the state of the surface prior to recent rains. The surface is still very patchy as it was the season before. Again supports JC's bore initiative. PC thanked JC for his assistance with Emily Smiths filming session over the Christmas period at the grange.

Rugby League

BD requested that grass be cut very high at memorial oval from now on if at all which was acknowledged by JC. BD noted the commentary box needed some repairs and that club members were happy to assist with materials and volunteer labor. JC to organize a full inspection of the box to determine what work was required and then discuss this with Green Devils committee.

BD noted that memorial oval accommodates poorly visiting spectators and others on the Marsden street side. It was noted buses with seniors buses tend to park on that side and now have no toilet facilities and it is impractical for such people to walk to the other end. There was previously a small toilet block there and has been temporary toilets there from time to time. Water, sewer and power are all connected to that point. Committee completely agreed and supported the idea of building a modest facility on that side.

Moved BD seconded PC That the committee request council prepare a scope of works for a small toilet facility on the Marsden street side and grant funding be sought but that again green devils happy to provide skilled volunteer labor.

Rugby/Cricket/Soccer no report

Budgets

PC reminded all reps to make sure they put in budgetary submissions if they are in need of financial assistance

Memorial Oval Club House

PC noted that the exhibition period for the Plan of Management ends tomorrow 4 March. ULSC will then meet to consider any submissions and agree on a final plan of management. Club House users will then be invited to submit applications for specified uses over set periods. Approved users will then be issued with terms of use and issued keys. JC noted keys would be issued on a limited and highly controlled basis. PC agreed to urge ULSC to meet as soon as possible to approve the P of M so clubs have access well in advance of season commencement.

Next Meeting

The next meeting to be advised meeting closed at 8.10pm
